POLICY OF VITAL SPEECHES

The publishers of Vital Speeches believe that the important addresses of the recognized leaders of public opinion constitute the best expression of contemporary thought in America, and that it is extremely important for the welfare of the nation that these speeches be permanently recorded and disseminated. The publishers have no axe to grind. Vital Speeches will be found authentic and constructive.

It is the policy of the publishers to cover both sides of public questions and to print all speeches in full. Where it is necessary to condense a speech for reasons of unusual length or the use of extraneous matter, it will be so stated when printing. They feel that it is only in the unedited and unexpurgated speech that the reader can best obtain the views of the speaker.

This material gives the reader the best thoughts of the best minds on current national problems. It also offers the student of public speaking examples of the effective speech of today of those who have attained leadership in the fields of economics, politics, education, sociology, government, criminology, finance, business, taxation, health, law, labor, etc. Thus the student of public speaking obtains the finest text book material with a sound knowledge of public questions.

Subscribers are urged to call the Editor's attention to any speeches which have impressed them as outstanding so that copies may be secured for review.
